

# Infecting your practice...

with good infection prevention  
and control practice

Workforce Development and Learning, Disability Services has recently developed a DVD to assist all staff working in residential services, to keep themselves and the people they support, free from infection.

## Who should watch this DVD?

All staff working in disability residential services.

## When should it be watched?

This depends on your organisation. Some organisations are watching the DVD in team meetings or by attaching some additional time to their fire safety refresher training being conducted at their house.

## How long is this DVD?

The DVD goes for approximately 19 mins.

## Do we need to do anything after watching the DVD?

Yes. After watching the DVD staff should work together to complete the activity included on the cover of the DVD. This should only take approximately 15 mins.

## Where can I get copies?

If you do not have a copy in your house, copies can be obtained from:
